

## SESSION INFORMATION

### ASBO International 96th Annual Meeting & Exhibits 2010

Date: Sunday, September 26, 2010

**The Role of School Facilities in the Delivery of Instruction: A Physical Capital Perspective, GM007**

Track: Goldmine Sessions

Time: 2:15 PM to 3:30 PM EST

Room: Monterrey 1-3

Learn about a study that investigated the relationship between the quality of 10 facility conditions and the delivery of instruction after controlling three school and two student covariates. The study provided educators, policymakers, and legislators with research-based guidance on the relationship between school facilities and delivery of instruction.

Learning Objectives: 1. To contribute in establishing a theoretical foundation for research on school facilities. 2. To empirically investigate the relationship between school facility conditions and the delivery of instruction. 3. To provide educators, policymakers, and legislators with research-based guidance on the relationship between school facilities and delivery of instruction.

**Speakers(S):** Ibrahim Duyar, Associate Professor, University of Arkansas at Little Rock, Arkansas; Steve Bounds, Assistant Professor, Arkansas State University, Jonesboro, Arkansas
